Anthony Masi
Alliance Energy Solutions
May 4, 2007

Dear Anthony,

I wanted to thank you for installing the energy saving lighting systems at Brewster Ice Arena. The quality of the new lights has improved our facility, and several of our customers have commented favorably on the new lights. The installation was completed on schedule and the crews were very professional. The project manager Jamie Sykora was also helpful in relocating several fixtures which were previously not accessible for maintenance. In addition, during the entire process there were no interruptions to our business.

The savings on my electric bill is 50% of the lighting system, and the rebate funds from NYSERDA were very substantial.

Thank you again,
