To whom it may concern,

I would like you to know how pleased I am with the professional manner in which Rich Krueger, project manager for Alliance Energy Solutions executed the lighting project here at Chromalloy. It isn't often a project of that proportion is undertaken in this facility with as minimal business interruption as Rich was able to provide. It is a difficult task in a facility of this nature that runs production three shifts and with the sensitivity of our equipment and product.

Alliance Energy Solutions was able to meet and / or exceed all our lighting requirements and expectations, some of which are specified by the F.A.A., for inspection / quality areas, toolmaker areas machine shops, offices etc.

Best Regards
