115 Hurley Road Unit 3F
Oxford, CT 06478

Dear George,

Now that the upgraded lighting installation project is complete, I just wanted to write and let you know how satisfied I am with the results. The brighter manufacturing floor is as good as promised. There have been numerous positive comments from the personnel throughout the plant.

One added benefit the upgrade provides is better lighting for the visual inspections required in our processes. In the cosmetic packaging industry, this is a very significant. We are hoping to have some additional cost savings resulting with earlier defect detection.

The crew who did the installation did so in a manner that was very efficient and courteous. They completed the installation with minimal disruption to our manufacturing processes.

Thanks for the smooth conversion.

Best Regards,

Bill Sweet
Manager Manufacturing Engineering
