Alliance Energy Solutions
Attention: George Straznitskas
115 Hurley Rd., Unit 3F
Oxford, CT 06478

Dear George:

Just wanted to let you know that the "Alliance" crew did a great job on the lighting upgrade installation. They were done very quick and caused no disruptions in our operation. The guys in that building love how bright it is. That brightness will have a positive affect on safety.

A benefit I didn't think about at the time we signed the contract is that we gained usable ceiling height switching from the lower hanging Metal Halide to the fluorescence.

Again, I appreciate all the up-front work you did to help me move this project forward. It was very successful.

Jim Benning
Director of Operations
